Sciton Nano - Micro Laser Peel

This laser utilizes a short-pulsed Erbium laser to ablate the outer layers of the skin at precise depths. We offer these "peels" from 4-50+ microns. This treatment delivers excellent results poor skin tone, fine lines and wrinkles, acne, scars, and sun-damage. This peel is ideal for total skin rejuvenation.

One 10-micron Micro Laser Peel is the equivalent of 4-6 micro-dermabrasion treatments. You may experience 1-7 days of redness, swelling, and/or peeling with this procedure depending on the depth. We may recommend a series of treatments depending on your skin and schedule.

Depth of Peel	Face	Neck	Eyes, Cheeks, Mouth or Hands	Chest
Nano (4-6 Microns)				
Light-Medium-Deep (8-50 microns)				

Advanced Intense Pulse Light/BBL and HERO Corrective Treatments

Salameh Med Spa & Skin Care offers the most advanced BBL (broad band light) technology.

BBL is often called photo-rejuvenation or photofacial. It is the gold-standard for the treatment of hyperpigmentation, sun-damage, rosacea, vascular lesions, active acne, etc.

You may notice positive changes even after your very first session. We recommend an initial series of 3-5 treatments, one every two-four weeks. Depending on the condition of the skin, more treatments may be necessary. Many people maintain their results with an additional maintenance treatment every 4-6 months

Laser Tattoo Removal

Our Lucid Q-PTP laser removes tattoos by breaking up the pigment colors with a high-intensity light beam. Black tattoo pigment absorbs all laser wavelengths, making it the easiest color to treat. Other colors can be treated using select wavelengths based upon the pigment color.

Laser/Light Hair Removal

Salameh Med Spa & Skin Care owns 2 FDA approved laser/light systems for hair removal.

We can treat all skin colors. We will recommend anywhere from 6 - 8 treatments depending on the area of the body and the color of the hair. Maintenance treatments can be scheduled usually 1-2 times a year after you have completed your initial series of treatments to maintain long term hair reduction.

Dermaplane

Dermaplane treatment exfoliates by utilizing a special surgical blade to remove the outermost layer of dead skin while also removing fine vellus hair.

Dermaplaning

Dermaplane
+ Mini Gel Peel

Dermaplaning leaves your skin brighter, smoother, glowing, and more youthful. You will notice your makeup goes on smoother. The only people who cannot dermaplane are those with active pustular acne. Our clients like to add this treatment on to facials.

Dermaplaning Add-on

***Prices are PER TREATMENT**

Microneedling

We use Skinstylus, this is an FDA approved Microneedling device in the US for fine lines, acne scars, sun damage, and improvement of the skin's overall appearance.

Full Face

Neck or Chest
Add On

Ideal for all skin types with visible improvement in as few as two-three non-invasive treatments spaced 30 days apart.

PRP Add-on
(platelet rich plasma)

Hollywood Facial Carbon Laser Peel

Face

Chest

Shoulders or Back

A carbon laser peel is a non-invasive procedure that involves applying a layer of liquid carbon over the face which penetrates deep into the pores. The carbon absorbs contaminants such as dead skin cells, blackheads and oils. The laser passes then destroy the carbon along with the impurities.

And 6 HydraFacial's (per year)

Look your best at any age with our Stay Forever Young annual program! When you purchase this program you, save 20% while maintaining beautiful skin.

Manual Lymphatic Draining (MLD) Treatment

The lymphatic system is the frontline in our bodies' ability to fight disease and infection. It is also involved in detoxifying our body (like our own inbuilt waste disposal unit) transporting toxins, bacteria, excess fluid, and metabolic waste out of our bodies. It is not a muscular massage, but essentially works above the muscle fascia as 70% of the lymphatic fluid is found here.

Injection Treatments

Botox® Injections

Botox is one of the most popular and effective treatments for wrinkles caused by expressions around the eyes and on the forehead.

Price

Touch Ups

You will normally see results in 2-14 days, and it is effective for approximately 3-4 months in most people. We price out Botox by the unit, as each person's needs are different. One unit of the Botox is equivalent to three units of Dysport.

Dysport

Dysport is the European version of neurotoxin and performs similar to Botox.

Price

Hair PRP Platelet Rich Plasma

PRP is a concentrated preparation of platelets and the associated growth factors in a small volume of plasma. Platelets are a natural source of several growth factors. Platelets release growth factors which regulate the healing cascade by signaling to surrounding cells to repair damaged tissue and regenerate new tissue. PRP is injected into your scalp that can help heal bodily tissues, including follicles from which your hairs grow.
